DETAILED ACTION

Response to Amendment

1. The response filed July 11, 2006 is acknowledged.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action:

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "plurality of adhered caps each including a main body having a concave surface" recited in claim 21; the "seal packing is seated around a peripheral portion of said concave surface" recited in claim 22; the "one of the said adhered caps is adhered to a function droplet ejection head" recited in claims 23 and 24; the "first lift cylinder and second lift cylinder" recited in claim 26; the "plurality of suction tubes" recited in claim 27 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet,

and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

4. Claims 21-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 21 recites "a plurality of adhered caps" in line 5 which appears to be a double inclusion of the "cap unit" recited in line 3. The specification discloses, in paragraph 79, "in the cap unit 72, the twelve caps 73 are disposed..."

The preamble of claim 21 recites a "suction unit" but the claim body recites "...adhered caps..." The specification discloses that the caps adhere to the to the function liquid droplet ejection head. It is uncertain whether applicant is claiming the subcombination of a suction unit or the combination of a suction unit and a liquid droplet ejection apparatus.

Art Unit: 3752

Regarding claims 23 and 24, the preamble recites a suction unit, but the claim body recites "adhered to a function droplet ejection head." It is uncertain whether applicant is claiming the subcombination of a suction unit or the combination of a suction unit and a liquid droplet ejection apparatus.

Claim Rejections - 35 USC § 102

5. Claim 21 is rejected under 35 U.S.C. 102(b) as being anticipated by Reed et al. (5,797,546).

Reed discloses a suction unit comprising:

a cap unit having a plurality of adhered caps 20, 22 each including a main body having a concave surface (interior curved surface of the cylindrical pumps 20, 22)

a support member (support of ram 38)

a lift mechanism 38

a plurality of ejectors 190

a suction system 24, 26.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
